Gentlemen:
The trees that I received from you this spring are certainly coming wonderful right now. My house is on a corner and they can be seen from three streets. I have had many inquiries as to where I bought the stock as they are the nicest that I received from six different nurseries. I am, of course, only too glad to recommend Maloney Bros. of Dansville.

Very truly yours,
RAYMOND S. CARD.

CORTLAND

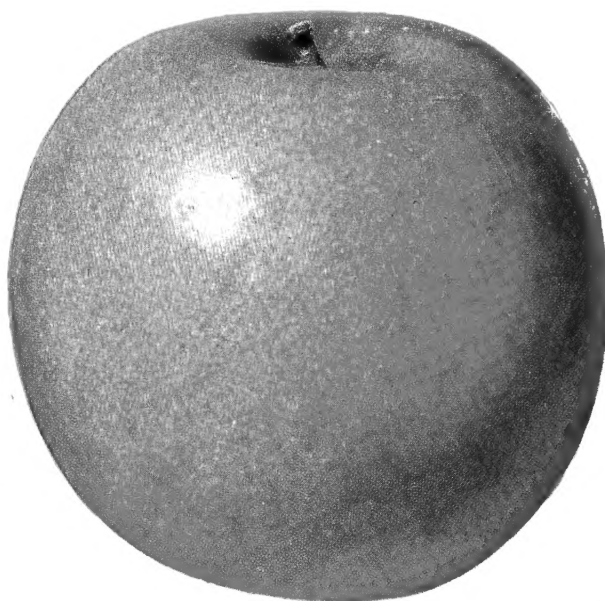

Beautiful red Apple, larger than McIntosh. Matures a month later. Excellent quality. Keeps late in winter and can be handled and shipped like the hardiest market varieties. Fine for culinary purposes. November-March.

DOUBLE RED DELICIOUS

Solid lustrous red without stripes. Fine grained flesh of excellent quality and flavor. Annual bearer. One of the most highly prized winter eating Apples. Everyone should have a few trees of this variety. November-April.

Maloney's popular Apple varieties can also be furnished in big, well formed extra size trees. See page 3.

Lodi—An Early Summer Apple

A new large variety, resembling Yellow Transparent. Bears fruit young. We recommend it highly. Mid-August.

RED ROME

Rapidly becoming a leading commercial variety having the same shape and texture with equal or better quality than Rome Beauty. December-March.

Three Other Good Summer Apples

ANOKA. New beautiful red-striped fruit. Good quality, highly recommended. Bears second year after planting. Mid-August.

RED ASTRACHAN. A good bearer, fruit handsome, large, round, covered with deep crimson. Flesh juicy and tender. Good summer apple. Early August.

YELLOW TRANSPARENT. Tree grows upright, hardy, early bearer. Fruit good size. Skin clear, white to pale yellow in color. Flavor very good. Is an excellent cooking Apple known to the housewife everywhere. Early August.

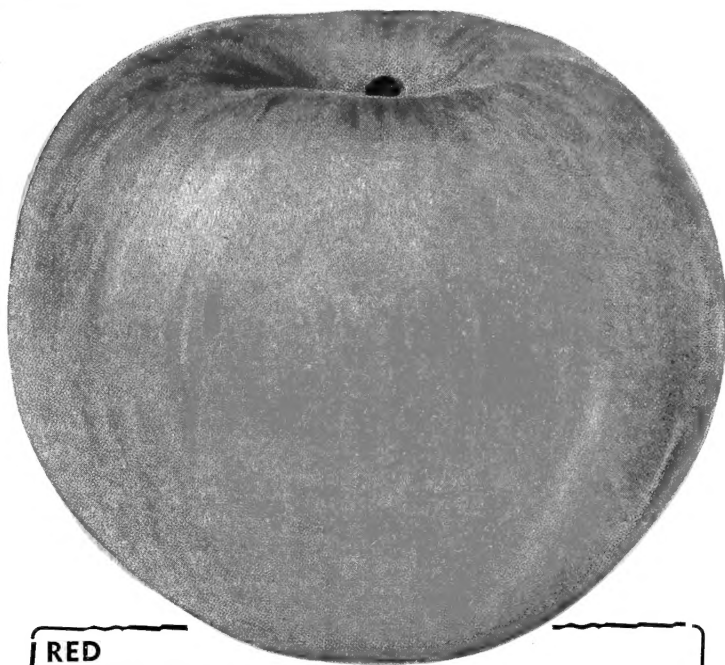

Fruit 15¢ a Bushel

50c a year for spray materials—a tree \$2.00 or less—a little garden space. Where else can you get such a bargain?

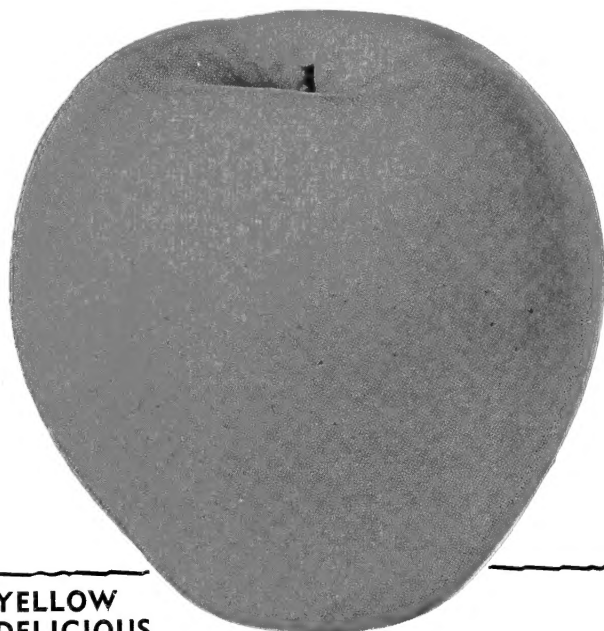

New Rogers McIntosh

Solid red McIntosh, classed as one of the most valuable new fruit introductions in years. Annual bearer. Fruit is the same size as the common McIntosh, but it is not striped. Flesh white, fine grained, very tender, juicy and refreshing. Better quality than common McIntosh and hangs better on tree. October-January.

RED NORTHERN SPY

Red Spy is typical Northern Spy Apple except in color. The Red Spy colors a solid bright red without either stripes or splashes. Very popular winter variety. December-March.

YELLOW DELICIOUS

This predominantly golden colored Apple supersedes all others for appetite appeal. It has the same unique form as the Red Delicious and is a favorite with home gardeners as well as the commercially-minded grower. Juicy and fine quality. October-April.

All of the Apple varieties propagated and now growing in Maloney Brothers Nursery, Dansville, New York, have been examined by the Massachusetts Trueness-to-Name Inspection Service. To the best of our knowledge, these trees are true-to-name as they now stand in the nursery row.

SIZE OF FRUIT TREE TO ORDER

5-6 ft. Trees

These big 5-6 ft. super size trees are the finest 2-year-olds we can grow. They are the largest and sturdiest size of 2-yr. tree, tall as you are and carefully dug to give immediate results.

4-5 ft. Trees

A smaller tree, just as hardy, having all the qualities of the 5-6 ft. tree, but lacking the size. An exceptional buy on a better than average tree.

3-4 ft. Trees

These trees are widely planted. A small size, hardy, dependable tree bears same as above sizes but a little slower to mature.

1 Year Trees

A one-year-old tree very popular for the fruit grower or small gardener who prefers to start with a young tree. Grows rapidly.

No one claims all the good Apples are grown in New York State but there is substantial proof that the finest Apple trees to be found anywhere probably come from the Dansville, New York region. They are "Your Best Bet."

Approved Winter Apples

BALDWIN. Large, red, crisp, juicy. Good eating and cooking Apple. Tree vigorous and productive. December-March.

CORTLAND. This is one of our leading varieties, popular with the commercial grower. See page 4 for illustration and description.

Double Red Delicious Solid lustrous red without stripes. Fine grained flesh of excellent quality and flavor. A splendid keeper and shipper. Annual bearer, one of the most highly prized winter eating Apples. Everyone should have a few trees of this variety. See page 4 for illustration and description.

GOLDEN RUSSET. Clear golden russet. November-April.

JONATHAN DARK RED. For eating fresh, dried, cooked, baked. Skin is rich red all over, long before ripe. A quick seller. Keeps all winter in storage. Jonathan trees bear young and always produce a full and profitable crop. Preferred long-distance shipper. Better quality than common Jonathan. November-March.

MACOUN. Dark red; white fleshed; rich flavor. October-March.

McIntosh Red Valuable, hardy, attractive Apple; good size, nearly covered with red. Flesh white, fine, very tender and refreshing. A good annual bearer, comes into fruiting early. Yields large crops. October-January.

MILTON. McIntosh-like but ripens a month before McIntosh. Fruits pinkish red with heavy bloom; flesh white, tender, crisp, juicy and of McIntosh flavor and aroma. September-October.

NEW ROGERS McINTOSH. This variety is comparatively new, a development from the original famous McIntosh, which is of high red color at an early age and a splendid eating and cooking variety. See page 5 for illustration and description.

RED NORTHERN SPY. A family progeny of the all-time favorite Northern Spy, which combines all the fine characteristics of its famous predecessor plus heightened red coloring which makes it a highly marketable Apple. See page 5 for illustration and description.

Red Rome Rapidly becoming a leading commercial variety having the same shape and texture with equal or better quality than Rome Beauty. December-March. See page 4 for illustration and description.

R. I. GREENING. Fruit large and handsome, smooth, dark green over-spread with yellow. More highly prized for cooking than any other apple. Excellent keeper; tree very heavy yielder. Dec.-May.

ROME BEAUTY. Large, round. Red striped. December-March.

STAYMAN RED. Solid red without stripes. Does not crack at stem; crisp and juicy. Will not scald in storage. December-April.

SWEET DELICIOUS. Large and attractive in size. Color yellow and dark red. Fine for dessert and baking. December-April.

TWENTY OUNCE. Very large, yellow striped red, fine quality, good keeper. October-January.

WEALTHY. Red, flesh white, sub-acid. October-January.

YELLOW DELICIOUS. This predominantly golden colored Apple supersedes all others for appetite appeal. It has the same unique form as the Red Delicious, and is a favorite with home gardeners as well as the commercially minded grower. See page 5 for illustration and description.

Gentlemen:

My heartiest thanks for those wonderfully rooted Dwarf Apple Trees I purchased from you last month. I never would have believed they would be so healthy and strong. Strangely enough the Yellow Delicious had blooms on two branches 27 days after it was planted.

Again, please accept my thanks for your service, courtesy and good stock.

Very truly yours,
J. C. SAVIELLO.

May 12th, 1949.

Gentlemen:

I received the 4 peach trees and 1 quince that I ordered from you in good condition. I planted them and they are all budding out nicely. Will say they were very nice trees.

Very truly yours,
RALPH E. LAM.

Rochester, N. Y.,
May 11th, 1949.

Gentlemen:

Tried your firm for the first time Saturday, May 8th. I was more than pleased with the best trees I've seen in a long time. Any future orders I make will go to Maloneys.

Very truly yours,
CHARLES D. FRANK.

Elyria, Ohio,
June 6th, 1949.

Gentlemen:

About 2 weeks ago I received my order of 5 flowering shrubs and 50 Strawberry plants. I was rather worried at first as along came one of Ohio's hot spells. I should not have been as they were such healthy looking plants. I am happy to state every shrub has leafed out and every Strawberry plant is growing.

Many thanks for such nice shrubs and plants at such a low cost.

Very truly yours,
MRS. EARL LEWIS.

Newark, Del.,
June 2nd, 1949.

Gentlemen:

I have received the nursery stock in wonderful condition. Up to this time I am free to say they are growing splendidly and they will grow I am sure. I shall have Blueberries and Strawberries this season although I pick a good many of the blossoms to strengthen next year's growth.

Thank you again for your fine service and good plants.

Very truly yours,
ANTHONY BONE.

San Antonio, Texas,
May 6, 1949.

Gentlemen:

I received, today, the pear tree and plum tree which I ordered. They arrived on Thursday, for which I wish to thank you as I had specially asked that they not arrive in San Antonio on Saturday or Sunday.

I also wish you to know how delighted I was with such sturdy, healthy trees and they arrived in such perfect condition, one would have thought they had just been taken from the ground. They were not dried a particle and were fresh and nice.

Thanking you again, I remain,

Yours truly,
MRS. ALMA B. GASTRING.

Hansen's Bush Cherry
The New Quick-Bearing Cherry—Highly Productive—Good Flavor
EASY TO GROW—SURE TO PRODUCE—HARDY EVERYWHERE

Though the fruit of this new Cherry much resembles a Plum in size and shape, it comes massed in clusters and at times almost completely covers the limbs. The tree grows in a dwarf bushlike shape rarely getting over 4 to 5 feet tall. Fruit is sour. Also a striking ornamental value.

Plant Hansen Bush Cherries Because:

1. They are so easy to grow and are perfectly hardy everywhere.
2. Are good to eat fresh, and make delicious preserves.
3. Bear from the ground up, early, heavily, and annually.
4. Are dwarf growing, bushy, take up little room.
5. Excellent for hedges, ornamental shrubs and erosion control.

Price: 3-vr., fruiting age, 75c each; 2 for \$1.45.

GIANT VICTORIA. This new red variety has giant size stalks, twice the size of ordinary Rhubarb; very tender. Fine flavor.

MacDONALD. The new, all red, tender Rhubarb. From MacDonald College in Quebec, Prof. L. G. Bunting has originated this very highly colored and palatable large-sized early fruit. It is incomparable with any other variety, and is easily adaptable for pies, desserts, and preserves in combination with other fruits. Not grown from seed. Plants propagated by division. Plant some this year—the whole family will enjoy this new worth-while variety. Price: 75c each; or 3 for \$2.00.

ASPARAGUS *Rust Resistant*

Easy to Grow—A Delicious Table Vegetable

MARY WASHINGTON, Pedigreed. Healthful and delicious, and also easy to grow . . . it's no wonder fresh Asparagus tips are such a popular delicacy. New shoots keep coming as the tops are cut. Mary Washington is heavy yielding, rust resistant, and is fast replacing older varieties in home and market. Mary Washington is accepted by commercial growers as the best type . . . hardy, long lived, a heavy producer of tall, straight, tender shoots.

DORSETT. Released for introduction by the U. S. Department of Agriculture, spring 1933. Color is bright red. Berries very large; flavor superior to other early berries. Can be classed among the best.

PREMIER. Perfectly flavored. It is smooth and large; its color is the commanding glossy red which sells on sight. Early.

LATE GIANT. New, very late and giant in size. Dark red all the way through and honey sweet with a distinct "twang" of strawberry. Late Giant comes in bearing around 10 days after Premier and is a vigorous grower producing a better fruiting row than most other late varieties.

ROBINSON. The new Robinson originated in the heart of the Strawberry growing section of Michigan, and is rapidly growing in popularity. It brought a premium on the market due to its scarlet-red color and unusual firmness. It is a vigorous grower. Midseason.

SPARKLE. High quality berry. Ripens a week later than Premier. Fairly large, bright red, smooth and firm, excellent for freezing. Plants are large and vigorous. One of the best late varieties tested at the New York State Experiment Station, Geneva, N. Y.

STREAMLINER. The Strawberry you will enjoy without sugar is finally here. Sweet as honey, fresh as a June day. The Streamliner gives you everything. The berries are jumbo sized, glossy red and delicious, conical in shape and very uniform in size throughout the season; starts fruiting in July and extends until hard freezing weather. Up to a quart of berries per plant has been known of Streamliner. **Price: 25 for \$2.25; 50 for \$3.75; 100 for \$6.00; 250 for \$12.00; 500 for \$18.75; 1000 for \$30.00.**

SUPERFECTION. New Everbearing originated by Mr. Kiplinger of Northern Michigan. Berries are very large, tend to be round in shape. They are deep red all the way through. Superfection has the usual quality in everbearing of being honey-sweet in flavor and still firm enough for distant shipping. Resembles Robinson in this respect. Berries are produced 90 days after planting first season and produce exceptionally heavy crops with hard freezing weather. A good plant maker and vigorous grower.

Price: 25 for \$2.40; 50 for \$4.35; 100 for \$7.00; 250 for \$14.00; 500 for \$21.90; 1000 for \$35.00.

Blackberries

3 Best Varieties of Selected Blackberries

Blackberries Are Delicious When Picked or When Frozen or Canned

Blackberries are easily grown and bear abundantly. They grow almost any place, even on a rough, steep hillside. What is more appetizing than a piece of Blackberry pie or a dish of juicy, sweet Blackberries and cream?

We send you Select No. 1 plants grown from root cuttings. These are much superior to cheap plants from suckers. A straw mulch is fine for Blackberries and Raspberries. It holds moisture in summer, prevents weeds and eliminates cultivating.

ALFRED. Excellent flavor; very firm, large berries, size holds up well to the end of the picking season. Practically free from seeds. Plant is a thrifty grower, extremely hardy, bears young, suitable for home or market use. Early July.

BLOWERS. Large, jet-black. Hardy and productive. Starts to ripen in July and continues late.

ELDORADO. Our most popular variety. The sparkling jet-black berries are very large, sweet and delicious, and practically seedless. The plant is extremely hardy and vigorous, and a regular heavy bearer. August.

PRICE: 1-yr., No. 1, selected rooted cuttings, 25 for \$3.30; 50 for \$5.70; 100 for \$9.90; 500 for \$34.50.

The New Sensational Youngberry

Hardy, Sweet, Delicious, Tremendous Bearer Mid-July

This new fruit, a cross of the Loganberry and the Dewberry, has become very popular, planted from coast to coast. It has such a wonderful flavor, delicious to eat fresh, and makes the finest sauce you ever tasted. The fruit is very large, a handsome dark wine-red color, sweet and delicious, highly flavored, almost seedless. A tremendous bearer. It is a very easy plant to grow. No other fruit has become so popular in such a short time. North of Missouri it should be covered over winter. This can be easily done with straw, leaves and a little dirt. Plant some this spring; you are sure to like them.

DEWBERRIES

Plant the Popular LUCRETIA

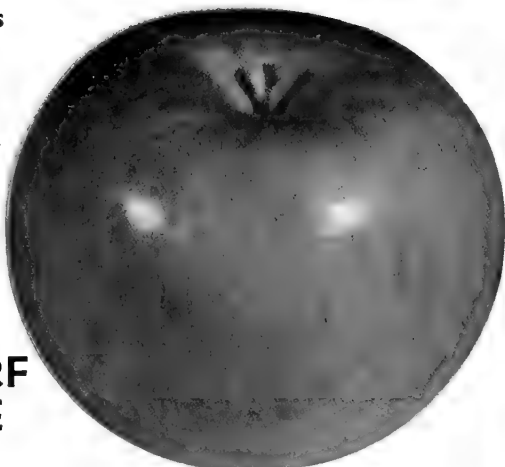

Excellent for canning. Of the Blackberry type, but produced on a trailing vine instead of upright bush. Berries extra large, long, glistening black. Attractive, firm, good quality. Plants are disease resistant. Yields large profits when grown commercially. Early July.

PRICE: 2-yr., extra large, No. 1 plants, 3 for 90c; 6 for \$1.50; 10 for \$2.00; 25 for \$3.75.

THORNLESS BOYSENBERRY

For a New and Exciting Berry Flavor, Suggestive of the Raspberry,
Preserved Boysenberries are Tops in Eating Pleasure

Price: 2-yr., extra large, No. 1 plants, 3 for \$1.65; 6 for \$2.70; 10 for \$3.50; 25 for \$6.75.

This amazing new berry has the same big, juicy, delicious fruit as the regular Boysenberry. The vines are absolutely thornless, making the cultivation of same and picking easy. They can be trained to a trellis or wire. Late July.

HOW TO GROW BOYSENBERRIES

Set plants 8 by 8 ft. in and between rows. Let the vines creep on the ground the first year. To be safe, cover the plants with straw, leaves or soil before heavy frosts. When the buds appear, tie the vines to the wire or trellis about 2 1/2 ft. above the ground. After fruiting, cut the plants to the ground and burn vines. Repeat this practice every year.

Mammoth BOYSENBERRIES

A "Whopper" of a Berry—Often Measuring an Inch Across

Price: 2-yr., extra large, No. 1 plants, 3 for \$1.50; 6 for \$2.40; 10 for \$3.00; 25 for \$5.50.

This is the berry which has created such a sensation throughout the United States. A tremendous bearer of immense berries often 1 1/2 to 2 inches long, of the highest quality. No matter whether used fresh or canned, or in pies or jelly, it stands supreme. No other berry has ever been received so enthusiastically or planted so widely. Late July.

With some protection where the thermometer drops more than 10 degrees below zero, they can be grown almost anywhere other berries can be successfully grown.

For field culture spacing 8 feet apart in the rows with rows 8 feet apart is recommended. In smaller plots this may be varied to suit local conditions but plants should not be set closer than 6 feet in the rows.

These plants are strong, extra large, 2 years old. Will take hold at once and produce heavily the second year. Plant the same as any Raspberry plant. Then, when the shoot appears cover with 1 inch of soil and when the shoot has grown up through this soil, apply another inch and repeat once or twice more.

EVERGREENS

Plant Maloney's Approved Varieties

Evergreens Make a Dignified Planting That Always Pleases

All Evergreens are taken up expertly to secure the tender roots, the soil removed, and then the roots dipped in Transplantone and balled and burlapped in wet moss. By this method we are now able to eliminate 50 to 60 pounds of soil, making low cost express shipments possible. This method also insures excellent growth and quicker root action. In planting, remove burlap and use peat moss in hole around roots.

All Evergreens are shipped separate from other orders because they are late in maturing.

MALONEY'S *Gladiolus*

Not less than five of a variety. No. 1, large size bulbs. Price (except as otherwise noted): 10 for \$1.25; 25 for \$2.75; 50 for \$4.75; 100 for \$8.75.

Among the Show Winners

Look over the list of "Glads." You'll find them all modern and many outstanding winners in our Gladiolus Show.

ANNAMAE. Very early pure white. A good commercial and a heavy producer of bulbs which grow readily.

BIG TOP. Really immense in size. Light pink with small carmine feather. Opens 7 on a 20-bud spike.

BLACK OPAL. Sensational, very dark red. 8-10 open on a long flower head. Fine show flowers.

CHAMOUNY. Tall, dark rose bordered with silver. Opens 8 to 10 medium sized florets. Color exceptionally and strikingly beautiful.

ELIZABETH THE QUEEN. The best and most beautiful lavender. Not exceptionally tall but fancy even when short. Opens 7 to 8 needle-pointed florets on an 18-bud spike.

GOLD DUST. A very early, deep yellow. Quite tall and an excellent commercial variety. Fine for home gardens as well.

LADY JANE. Clear light cream with yellow lip. Appears to be a light yellow.

LAVENDER QUEEN. Deep lavender-mauve that takes in real hot weather. Very strong grower.

MOHAWK. Deep glistening maroon that opens up to 10 blooms at a time.

MOTHER KADEL. Medium yellow without any foreign color. Like wax to the very depth of the throat.

ORANGE PRINCE. Color is dazzling orange with flame throat marking. Doesn't burn in hot sun.

PANDORA. Clear, soft, geranium pink with somewhat darker lines in throat. 8-10 open on a medium height plant. It makes an excellent cut flower and will win ribbons at the shows.

PELEGRINA. Early dark blue. One of the darkest blue ever found in Gladiolus.

PICARDY. Most popular variety grown. Very tall salmon-pink.

PURPLE SUPREME. Medium purple with silver edge on the petals. Will open 10 on a shoulder-high plant.

RED CHARM. A red of outstanding merit. Will open 10 on a tall, well-built plant.

ROCKET. Standard commercial scarlet-red that opens 7 to 9 large blooms.

SURFSIDE. Ruffled white with slight penciling in the throat. Heavy grower.

VALERIA. Beautiful shade of light red. Very strong, healthy grower.

WHITE GOLD. Very large clear light cream, shading to golden throat.

YELLOW HERALD. Very early clear yellow with a larger floret and many open. It blooms in about 60 days and is an exceptional bloom for so early a variety.

The following are at these prices: 10 for \$2.50; 25 for \$5.00; 50 for \$9.00; 100 for \$16.00.

ABU HASSAN. Dark violet-blue about the color of old Pelegrina. Large flowers; straight, strong stems.

BURMA. Very large, deep rose, shading to lighter throat. Ruffled. Opens up to ten.

DIEPPE. Opens 8 scarlet florets near 5½ in. wide. Increases easily and has commercial possibilities.

GOLDEN ARROW. Pure pastel yellow, no marking, no greenish cast. Straight, eight 5½ in. florets open. Vigorous grower.

LEADING LADY. Most popular Picardy sport. Leading white. Creamy white with no marking. Excellent grower.

SPOTLIGHT. Very large, wide open round flower in deep yellow with small scarlet blotch. Free bloomer.

BLUEBERRIES

by Maloney

A NEW DEVELOPMENT IN FINE EATING- Cultured BLUEBERRIES

It's easy to grow these extremely large Blueberries in the garden. They require acid soil. If your land is not this type you can inexpensively treat it with aluminum sulphate and peat moss to produce good growing conditions. (Instructions come with each shipment.)

NOTHING FINER FOR THE GARDEN

Early bearing—heavy yielding—wonderful for pies—
—excellent for freezing.

POLLENIZATION

Good productiveness is assured by planting two or more different varieties for proper pollenization.

4 Cultured BLUEBERRIES

CABOT. The earliest variety to ripen. Berries have a delicious sub-acid flavor. Plants seldom exceed 3 feet in height, making a broad, low bush.

CONCORD. High bush, berries large, well flavored, and attractive in appearance. Midseason.

RANCOCAS. Upright grower, vigorous, hardy; fruit very fine flavor. Fruit medium to large size. Sets very heavy crop of fruit buds. Midseason.

JERSEY. Tall, nice shaped bush of attractive appearance. A good producer. Berries are large and of good quality. Late.
